For parents

How do I see my child's results?

Your child's latest result is on Home and on their page, under Results, as soon as the school publishes it.

1

On **Home**, open your child. Their results are under **Results**, the latest at the top.

2

Open a result to see each subject, the comments, and skills and behaviour. **Report card** downloads the report card.

3

If the school holds results until fees are paid, you'll see "Held until fees are paid" instead. Choose **Pay**; the result opens as soon as it's paid.

Good to know

- To ask the school about a result, choose **Ask about this** on it.

For parents

How do I see and pay my children's fees?

Open Fees to see what you owe for each child and pay online, or pay by bank transfer and send the proof.

1

Open **Fees**. You see what you owe in all, and each child's bills, what's paid and what's left.

2

To pay online, choose **Pay online** on a child and follow the steps. Your receipt shows under the child's payments once it goes through.

3

If the school takes bank transfers, choose **Pay by transfer**. Pay into the account shown with your child's reference, then fill in the amount, date and account, add the receipt or a screenshot, and choose **I've paid**.

Good to know

- The school confirms a transfer, and you're told when it does. If it's declined, you can **Send again**.
- **Statement** shows all your charges and payments.
- If a child's fees are handled by another parent, they don't show here.
