For students

How do I take a test?

Open My tests, start the test when it's open, answer the questions and submit before the time runs out.

1

Open **My tests**. Tests you can take now are under **Open now**, with when they close.

2

Choose **Start** (or **Continue** if you've begun). If your teacher reads out a start code, type it in **Start code**, then choose **Start**.

3

Answer the questions. Your answers are saved as you go, even if your connection drops.

4

Choose **Submit** before the time runs out. When the time is up, what you answered is sent for you.

Good to know

- Your score shows under **Done** on My tests once your teacher releases it.
- Gist is off while a test is open. It's back when you submit.

For students

How do I see my timetable?

Open My timetable to see your week's lessons and your exam papers.

1

Open **My timetable**. **Week** shows your lessons, today first on a phone.

2

Choose **Exams** to see your exam papers coming up.

Good to know

- Your Home also shows today's lessons and what's next.
- Parents see a child's timetable on the child's page, under **Timetable**.
