How do I see and pay my children's fees?

Open Fees to see what you owe for each child and pay online, or pay by bank transfer and send the proof.

1. Open **Fees**. You see what you owe in all, and each child's bills, what's paid and what's left.

2. To pay online, choose **Pay online** on a child and follow the steps. Your receipt shows under the child's payments once it goes through.

3. If the school takes bank transfers, choose **Pay by transfer**. Pay into the account shown with your child's reference, then fill in the amount, date and account, add the receipt or a screenshot, and choose **I've paid**.

Good to know

- The school confirms a transfer, and you're told when it does. If it's declined, you can **Send again**.
- **Statement** shows all your charges and payments.
- If a child's fees are handled by another parent, they don't show here.
